## **PLAN OF OPERATION (275-24C (3)) FOR 14460 W. COLLEGE EVE NEW BERLIN...ADDITIONAL EVENT SPACE**

The plan of operation for the proposed event space building would be to host events as we have been doing for years seasonally in tented and covered pavilion spaces. This has been the vision of the company for over 10 years to cater in our own space onsite year-round. The building will have space for events up to 100-person capacity. Events that we have tailored a niche for are the smaller showers, birthday, and anniversary parties, tasting events, celebrations of life, youth sports banquets and the like. The building will also include a catering kitchen and bathrooms accessible from the indoor event space as well as general public use seasonally with our open air event space. The gathering space activities are food and beverage service related to events for both inside and outside of the buildings.

The proposed estimated frequency of use of the building would be 3 to 5 events per week. Events are typically weekend driven but can occur any day of the week. The season would be yearlong and hours of operation would vary with the vent type. We have and do host corporate breakfast events as early as 7 am and evening events that go as long as 12 am.

The total # of employees associated with the event space would be maximum 15, and the # of employees associated with the largest work shift would be 10.

There are no vehicles associated with this onsite event space.
